

## **ALLERGEN GUIDE**

## Printed information is valid: June 30, 2025

The information here details which menu items contain the most common allergens based on the information provided by our suppliers. We work to keep this information as up-to-date as possible, and suggest you confirm that the allergen guide used is the most current version available. Because all of our dishes are prepared-to-order, our normal kitchen operations may involve shared cooking and preparation areas. Therefore, we cannot guarantee that any menu item can be completely free of allergens. Items cooked on our grill or in our fryer present a special risk for cross-contamination, so we've clearly identified those for you. Unless noted, menu items include all fixed sides and sauces.

If you have any questions about this information, please contact: 1-800-272-9864
